

# DIVISION III: Education “Let’s Protect Our Natural Resources”

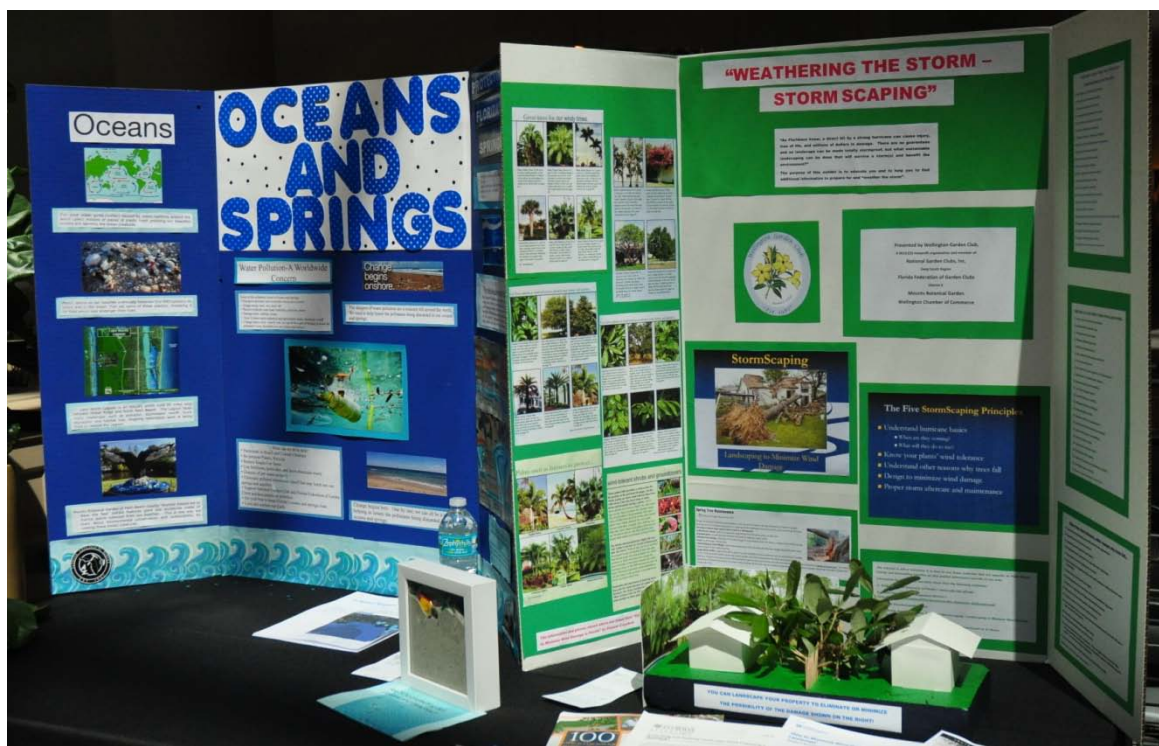

## SECTION A: “Let the Sun Shine!”

Consultant: Kathy Siena

Class 1. “On A Clear Day”

Exhibit 1. “Oceans & Springs”.

Water pollution is one of the main concerns of the world today. Sewage, Sludge, plastics, garbage, and even toxic pollutants are all dumped into the water. What can we do to help lessen the pollution being discarded into our oceans and springs?

Class 1. “On A Clear Day”

Exhibit 2. “Weathering the Storm – Storm Scaping”.

As Floridians know, a direct hit by a strong hurricane can cause injury, loss of life, and millions of dollars in damage. There are no guarantees and no landscape can be made totally storm-proof, but what sustainable landscaping can be done that will survive a storm(s) and benefit the environment?
