

Scholarship Chair**John Siena – May 2018**

I think my chairmanship was successful. We were able to award scholarships to three very worthy candidates who I think will espouse the aims and goals of the Wellington Garden Club both in their current status as students and as promising professionals.

The administration and help that I received from people both internal and external to the Club was not only sufficient but outstanding.

The budget was sufficient and generous as has been the historic case for this wonderful Club undertaking.

I would be happy to continue chairing this committee at the pleasure of the president.
