

PRESIDENTS MESSAGE

It is with great anticipation and excitement that I welcome back our Wellington Garden Club members. Hopefully you have all enjoyed your summers and have returned rested and ready for what promises to be a packed season.

We have some new chairs and some returning ones as well. Caren Griffin has recruited some wonderful speakers and Terrienne Tuskus has arranged for some interesting Around and Abouts. Our holiday luncheon will be chaired by Cass Stryker, and she has already made contacts and come up with some wonderful ideas.

Since we had so much fun at King's Academy last season, Stormi is already looking into events for this season. I can't wait. We will also continue the paper shredding event and hopefully some new fundraising opportunities.

Our biggest event of the year will be our Garden Tour. Deeridge Farms will be a once in a lifetime location for the event on April 13, 2019. It promises to be a look at gardens influenced by the father of American Landscaping, Frederick Law Olmsted. There will be traditional and specimen flowers and trees, all of which will be labeled. It will be a feast for the eyes. There will be refreshments and plant sales and gift items for sale. This is our most important fund raiser to support our numerous charities.

Looking forward to welcoming you back,

Carol Coleman

WGC President, 2017-2019
