

Website Post Request for Community Garden
National Garden Club Top Awards Given to
Community Garden at the Boys & Girls Club of Wellington
May 6, 2019

The Community Garden at the Wellington Boys & Girls Club was granted two first place awards by National Garden Clubs Inc. There were hundreds of applications and we were selected **first place in the nation for two categories:**

Overall Winner Community Gardens

Overall Winner Organic Gardening Practices

The Community Garden is a joint effort by the Young Professionals of Wellington, the Village of Wellington, the Boys & Girls Club, and the Wellington Garden Club. The operation of the garden is managed by Wellington Garden Club. There are several aspects to the garden, obviously the garden itself, but teaching young boys and girls about the both the science and practice of gardening, coordinating with young professionals, working with the Village of Wellington, and cooperating with the Boys & Girls Club staff are integral parts of the garden's operation. It is hard but rewarding work. We have dedicated volunteers who deserve the entire credit for the National Honor we received; as chairman I am proud to be associated with them...GO TEAM! Please consider joining this great group of hardworking volunteers.
