

Wellington Garden Club was pleased to award scholarships of \$1000.00 each to the students listed below. Each of them has qualities that bode well for the potential impact they will have on our community. We have a long history of giving support to promising students studying horticulture, environmental science and related fields of study. Wellington Garden Club has awarded a total of \$34,175.00 in scholarships in the past and we intend to continue our commitment to helping worthy scholars further their education for the foreseeable future.

Lauren Miles:

Lauren began her education at PBSC at what would have been her 8th grade year. She blossomed at PBSC studying environmental science and was on the President's and Dean's list. She has matriculated to FAU to continue her studies in environmental science.

Raaz Bhatia:

Raaz, as a student at Wellington Community High School, attained a 3.98 GPA, was vice president of National Technical Honor Society, and a member of math, technical, science, social studies, and Spanish honor societies. She also is a member of the band and chorus and works at her church with disadvantaged children. Raaz will attend UCF this fall.

Georgia Brooks:

Georgia is a student at Santa Fe College in Gainesville and is matriculating to UF this fall. She was a previous recipient of a scholarship from WGC. Her success at Santa Fe College and her determination to further her education in environmental science is commendable. We expect Georgia will have a positive impact in stewardship of our environment.
