**Thursday, March 17, 2022**  
**at 10:00 AM**

**Ed Hand and Hank Bonner**  
9846 Southwest Ventura Drive  
Palm City, FL 34990

Hank and Ed purchased their 5.8 acre home and garden in 2008 and the renovations began in 2009. It began by cleaning the land of Brazilian pepper and other undesirables. Then the landscape design began.

There will be 120 different palm species (thus many rare ones), 25 species of tropical bamboo, lots of various aroids (philodendron, thaumatococcus, anthuriums, colocasia, aloccasias, caladiums, etc.), some ginger, some orchids, and LOTS and LOTS of bromeliads of all types. The garden enjoys its share of pines and oaks and tropical flowering trees. A large water garden is filled with blooming water lilies and various water plants. The property sits on over 400 feet of canal in the back.

Hank and Ed will be selling some bromeliads. If interested, please bring cash.
