

Beach Clean Up

Saturday, September 18, 2021

On Saturday, September 18, 2021, the Wellington Garden Club participated in the International Coastal Cleanup. Eight (8) members participated and gathered a total of over 12 pounds of trash from the beaches at MacArthur State Park. That is a lot of trash considering the small pieces of plastic, styrofoam, and debris collected. The great news is that it will not be entering our oceans.

Thank you to Sandy and Fred Sklar, Twig Morris, Linda DeSanti, Lisa Ferrano, Ann Finch, Diane Rice and Maria Wolfe for ridding our coastal environment of trash.

In addition, present at the beach was Park Ranger Ruth Rhodes. She was a scholarship recipient from WGC in 2015-2016 Garden Club year. How wonderful to see our scholarship recipients fulfilling their dreams.
