

**WGC Membership Meeting
Wellington Community Center
Monday, October 3, 2022 at 9:30 AM**

Speaker: Kent Anderson

Topic: “The Water State: How Florida issues permits for pumping water is broken”

Project Paradise - Project Paradise was founded by a group of native Floridians who are passionate about protecting Florida’s environment and telling Florida’s stories through the arts. Project Paradise’s goal is to advocate for conservation efforts through impactful and inspired storytelling - knowing that it is much easier to bring the Florida Wildlife Corridor to its audience than vice versa.

Over the last ten years, Kent has traveled the globe creating content that focuses on the world’s most environmentally sensitive areas. He is a pilot, an eagle-scout, and an award-winning filmmaker that has worked with numerous non-profits and conservation efforts, both locally in Florida and abroad.
