

## Wellington Garden Club Celebrates National Garden Week

Every year in June Wellington Garden Club (WGC) celebrates National Garden Week. Sponsored by National Garden Clubs, Inc. the project is also celebrated by garden clubs throughout the United States.

This year WGC members gathered to create floral topiary arrangements that were presented to multiple locations throughout the Village of Wellington including Town Hall and other municipal offices, the Wellington library, four Wellington fire stations and local businesses that supported the club's recent garden tour.

The week was recognized by the Village of Wellington through a proclamation from the mayor's office and the acceptance of the floral tribute by Vice Mayor Maria Antuna. The event was also recognized on social media by the Village of Wellington and Wellington Garden Club.

Wellington Garden Club is a 501 C3 nonprofit organization founded in 1981 that is dedicated to the education and appreciation of gardening, floral design, horticulture and protection of the environment.
