

Around & About to Ann Norton Sculpture Garden, Thursday, October 15, 2026. Although a bit warm, the weather was perfect. Our tour guide, Donna, was very well versed in the life of Ann Weaver Norton. The studio was our first stop. There is a small gallery next to the studio which held the bronze rooster statue. The sculptures in the gardens varied in size (from large to very large). Shown below are several pictures of the Seven Beings which is made of Pink Norwegian Granite. Club members that attended were Roseanne Brandt, Lisa Ferrano, Carol Ralph, Sandra Clarke, Robin Hummel-Johnson, Sylvia Kelemen, Danese Sloan-Kendall, Claire Valier, Rosalind Hare, and Susan Specht. It was a wonderful day!
